Experience

Software Developer *Tech Company Inc.*
June 2019 – Present

- Developed and maintained web applications using React and Node.js.
- Collaborated with cross-functional teams to define and achieve project goals.
- Implemented RESTful APIs and integrated third-party services.
- Improved application performance, reducing load time by 30

Intern *Another Tech Company*
June 2018 – August 2018

- Assisted in the development of an internal tool for data analysis.
- Participated in code reviews and contributed to the improvement of code quality.
- Wrote unit tests to ensure code reliability.

Projects

Project One

- Developed a full-stack web application for task management using React and Node.js.
- Implemented user authentication and authorization with JWT.

Project Two

- Created a machine learning model to predict stock prices using Python.
- Visualized data trends and model performance with Matplotlib and Seaborn.

Profile

I'm a passionate software developer who loves crafting products that people love. I'm a huge lover of Open Source and also volunteer in many communities. I care about making the customers happy, testing, accessibility, teamwork, and code quality.

Skills

- **Programming Languages:** Python, Java, C++
- **Web Development:** HTML, CSS, JavaScript, React
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Tools:** Git, Docker, Jenkins

Open Source and Community

I have contributed to projects such as Mock Service Worker (used by thousands) and Testing Library (used by millions). I also volunteer in communities like KCD and Remix.
